

# INFORMATION ON SAFETY MEASURES AT LAT FACILITIES – TRAINING CENTERS IN AUSTRIA AND SWITZERLAND

As of: 10/01/2022

Dear Sir or Madam,

According to the current corresponding protection ordinance concerning Covid 19 regular training conditions apply in our **training centers** in **Austria** and **Switzerland**. Physical distancing of 1.5 meters as well as limitations of room use are no longer required. The obligation to wear face masks will also be abolished. Wearing a mask on a voluntary basis is still possible. Tests and masks are no longer provided by LAT.

Please note that persons with acute Covid 19 infection (positive test result) are not allowed to enter the LAT training centers until a negative test result is available. This applies to all LAT training locations in Germany, Austria and Switzerland.

Many thanks for your understanding and cooperation.

Kind regards,

Your team from Lufthansa Aviation Training
